"The Impact team at Rotman, informed by state-of-the-art research and the enduring fundamentals of management thinking, delivers innovative, pragmatic and actionable solutions. I am a regular customer myself. The professionalism, the value added, and the can-do-attitude keep me coming back" – Tiff Macklem, Former Rotman Dean

"I engaged them on two separate projects, for which I needed pricing model and financial projections expertise. Both engagements had their complexities and challenges, and the team was patient, gracious, thoughtful in their approach and communicative throughout. They adapted quickly, jumping in on client calls when I needed them to and collaborating well with the other team." – Gina Leslie, LEAP
